

# OCTOBER 2014

Beams for the roof are being welded into place.

In August we celebrated the beginning of the admin building which will also be home to the administrators. We remain grateful for the donations that are enabling us to move forward.

What began with a bulldozer, was followed by many man hours of digging to reach a depth of 23 ft.; then carefully filled with stones and covered with a cement cap is now our septic hole = 3.5 months of labor. Prayerfully it will serve us for years!

Electrical wiring being installed.

September is a month of many celebrations in HN.

9/1 Flag Day

9/10 Children's Day

9/15 Independence Day

And we enjoyed them all!
