Introduction:

In this quarter we observed that the children advance thanks to the help of God, of the sponsors of the Tranquilidad Foundation, the directors, parents and teachers. Each one carrying that grain of sand for these children. God bless their lives.

June

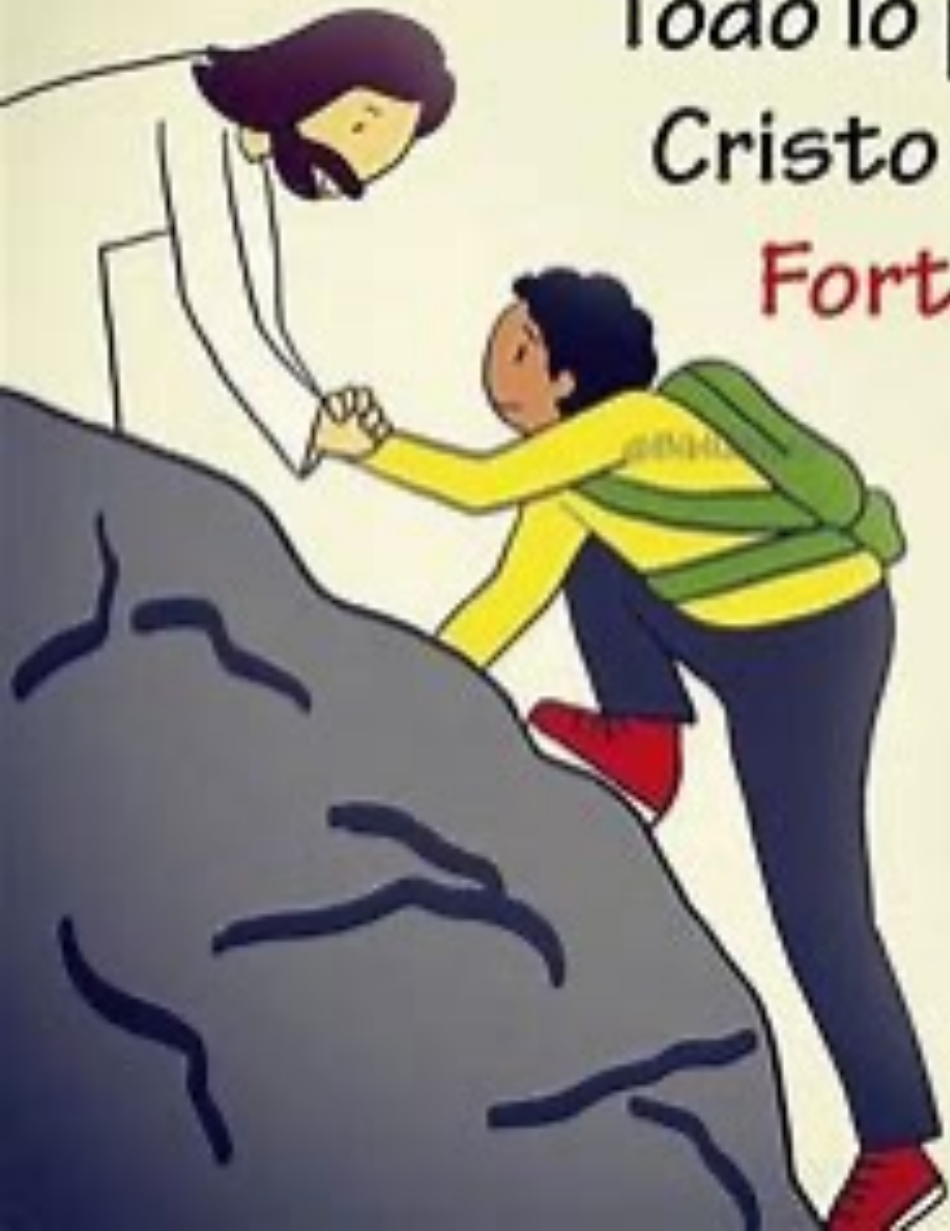

- We had many activities, such as: Bicycle treadmill race; student government election with the winner of this 2023 school year student Emir Noriega; painted the mural on the day of the oceans. In the last week of June, the students were in exams of second partial and on June 30 visited the bird park, Arraw Macaw, in Santa Rosa on the day of the Red Guara. Thank God for the care He gives to each one. God is faithful.

For this month we continue to develop many activities such as: The conservation of the soil, the children made some fertilizers with eggshells, the grounds from coffee, fruit peels etc .. In the end they fertilized some trees. We also celebrated the day of the Indian Lempira, the India Bonita and the Handsome Indian were chosen, having a beautiful program alluding to the date. Closing the month of July with a beautiful recital, which all the students performed amazingly.

We thank God always for the opportunity to advance us on this earth. Without His help and His presence, we are nothing.

- In the name of Jesus, we declare that this year will be a year of much learning in the students, so we believe and rely on it. Because God has promised to be present every day until the end of the age. “Because I can do all things through Christ who strengthens us.”
