

In early March, a fire jumped our fence and burned about half of our property. A huge thanks to our crew for saving the rest of the property.

Taking advantage of the fire, we decided to hire a bulldozer to come in and clear the area of our future pond; a firebreak lane, and to clear the area for the future administrative home/building.

## APRIL 2014

On most Sunday mornings, Sam and Roxanne can be found serving at the worship service at Manantial Del Rey, a program run by Sra. Martha Thomsen, their dear friend and landlady. On March 30<sup>th</sup>, what looked like a typical service became very special when two young girls received Jesus as their Savior! These children live in a very difficult situation but God has placed loving hands to assist them. We believe that the love shown by two women, one from MS, USA and the other their neighbor, helped them understand the sacrificial love of their Lord. ' Godincidentally', the Bible story for that day was from Matt. 19:14 " Jesus said, "Let the little children come to me, and do not hinder them, for the kingdom of heaven belongs to such as these." " We rejoice to witness the Holy Spirit at work wooing little ones unto Himself.

We attended our first Honduran wedding in March and pray for many years of happiness for the couple.

The foundation is complete and construction has begun on the walls.
